

SPC Leadership Showcased on Global Stage

Mr. Anil Taurani Delivers Keynote Address at the Global Steel Summit

Mr. Anil Taurani, Vice Chairman of the Steel Producers Committee (SPC) and Managing Director of Taurani Holdings, delivered the keynote speech at the Global Steel Summit, recognized as the world's premier gathering for industry leaders and policymakers in the steel sector.

In his address, Mr. Taurani emphasized SPC's pivotal role in:

- Supporting local producers to reinforce the UAE's economy.
- Safeguarding the domestic steel industry against unfair trade practices.
- Driving a vision of a competitive, resilient, and sustainable steel sector aligned with the UAE's long-term growth objectives.

His remarks reflect SPC's unwavering commitment to ensuring a strong and sustainable industrial ecosystem that not only protects national interests but also enhances the UAE's position as a key player in the global steel landscape.

The Committee takes pride in this representation, which underscores the UAE's growing influence in shaping the future of the international steel industry.

Installation of New K-Stage Laser Machine

Laser-Cut Precision and Speed

In our ongoing commitment to technological advancement, we are proud to announce the installation of a state-of-the-art laser cutting machine to enhance the precision, finish, and production efficiency of our renowned K-Stage Scaffold System.

This advanced laser cutter ranks among the most accurate and productive machines available today. Its design eliminates pipe vibration entirely, ensuring unmatched cutting precision and significantly higher processing speeds. Equipped with an automatic hopper-type pipe loader capable of lifting up to 2,500 kg, the system streamlines operations while maintaining superior quality standards.

Key Advantages:

- Exceptional processing accuracy with hole alignment within ± 0.05 mm
- Dynamic pipe support across the full workpiece length (servo drive)
- Double steady rest for enhanced pipe stability during cutting
- Dynamic receiving table (2/3/6 meters) for flexible operations
- Heavy-duty 11-ton structure for maximum rigidity
- Automatic nesting (Lantek) for optimized cutting and material efficiency
- Rapid performance with 1.5G acceleration and 150 rpm chuck rotation
- Proven reliability with an extensive track record across leading enterprises
- Readily available components ensuring uninterrupted operation

Strengthening Landmarks, One Project at a Time!

We are delighted to announce our association with Burt Place Contracting, a reputed contracting company. This collaboration marks another significant milestone in our journey.

As part of this partnership, we are proud to supply 5,600 Sq. Mtr area of our world-class lightweight EN Props to the prestigious Bab AL Qasr Residence 19, situated in Khalifa City, Abu Dhabi - one of the UAE's most dynamic and ambitious destinations.

Crafted from high-grade Galvanized Iron, our EN Props are precision

-engineered to deliver maximum load-bearing strength, easy handling and exceptional durability even under the harshest climatic conditions. These features make them a preferred choice for modern construction projects that demand both performance and reliability.

This association stands as yet another feather in our cap, reinforcing our position as one of the most advanced scaffolding and formwork companies in the Middle East - committed to supporting iconic projects that shape the region's skyline.
